

Bankruptcy & Restructuring

Morris Nichols has one of the leading business reorganization and restructuring practices in the nation.

At the center of many of the most important bankruptcy matters in Delaware and the United States, we offer clients unmatched guidance on how to navigate the Delaware courts, as well as a multidisciplinary approach steeped in a deep understanding of Delaware business and bankruptcy law - one that leverages the capabilities of our corporate litigation, intellectual property, real estate, and corporate and commercial counseling practices to provide insights on interrelated legal and business issues.

Recognized for their “complete mastery of the Delaware bankruptcy scene” (*Chambers USA* 2018), our lawyers craft highly effective solutions in countless insolvency-related matters, including chapter 11 reorganization and sale cases, non-judicial loan restructurings, chapter 7 liquidation cases and the acquisition of assets from distressed borrowers in and out of court.
