Weekly State Tax Report

Morris Nichols partner Michael Houghton contributed comments to the *BNA Weekly State Tax Report* article entitled “Pennsylvania Sues Delaware, MoneyGram for \$10.3 Million in Uncashed Checks.” Mike has advised Fortune 500 companies and others on unclaimed property issues for more than 25 years and told Bloomberg BNA the case is “extremely unusual.” He observed that the lawsuit was filed directly against Delaware State Escheator David Gregor, although the dispute appears to lie between the two states. He noted his skepticism that such a dispute, effectively between two states, could be successfully pursued “in a federal district court in Pennsylvania,” noting “I don’t know how that’s sustainable.”
